COMMUNICATION STRATEGIES TO IMPROVE AND PREVENT CHALLENGING BEHAVIORS

STEPS FOR TEACHING REQUESTS

Step 1: Watch for an indicating response
Step 2: Prompt the communication response
Step 3: Give the item; Label and praise
Step 4: Fade prompts over time; wait 3-5 s before providing prompt
Step 5: Track progress
Step 6: Practice, Practice, and more Practice

HOW TO CONTRIVE OPPORTUNITIES

- Engage with an item (i.e., blow some bubbles) you suspect your child might be motivated for
- Watch for indicating responses (e.g., reaching, pointing, looking towards item). Wait to see if your child will request. If not provide a prompt to help your child
- After a communication response from your child, deliver the item, label it, and provide praise!
