APPLICATION FOR DIGITAL ACCESS PROGRAM

Child Neurology Foundation is re-launching a program to give at least 50 families, with at least one child living with a neurologic condition, a refurbished Chromebook, and if applicable, a hotspot with 23GB of data a month for one year beginning April 20th, 2022.

To apply for this program, visit https://www.surveymonkey.com/r/TLRPG5.

This application collects contact information, level of need, and demographics.

Application Details
- Application opens on April 20th, 2022.
- Application will remain open until the first 50 eligible families have applied.
- If more than 50 families apply, CNF will prioritize based on greatest need.

Eligibility Criteria
- Families must have at least one child living with a neurologic condition.

Program Details
- Pilot program runs from April 20th, 2022 - until supplies last.
- Families will receive, and own outright, a refurbished Chromebook.
- If applicable, families will also receive a hotspot (23GB data will be provided each month for the first year of the program).

If you are not able to fill out the application online or have questions please contact Programs Coordinator at CNF, Jessica Nickrand at jnickrand@childneurologyfoundation.org.

About CNF
The Child Neurology Foundation provides education and support to families and their children living with neurologic conditions. Visit our website or follow us on social media to learn more about our resources.
