

## CHILD NEUROLOGY FOUNDATION TO HOST VIRTUAL SCREENINGS OF UNSEEN: HOW WE'RE FAILING PARENT CAREGIVERS & WHY IT MATTERS

Lexington, KY -- Child Neurology Foundation is proud to announce upcoming screenings of *Unseen: How We're Failing Parent Caregivers & Why It Matters*, a new documentary that takes an honest look at the lives of parent caregivers for children and adults who are disabled or medically complex, and a society that doesn't adequately support them.

The screenings will take place virtually during the screening window of **Monday September 30th, 2024 through Friday October 4th, 2024**. All those participating in the screenings are invited to a virtual discussion with the following discussion topics: **Transition of Care, Respite & Self-Care, Impact on Siblings, Harmful and Disruptive Behavior, Mental Health of the Family, Advocacy, and Date Night focused on the Impact on Marriages.**

*Participants can select preferred date and topics using the following link*

### About the Film

Unseen: How We're Failing Parent Caregivers & Why It Matters exposes the challenges and barriers faced by many parents caring for disabled or medically complex children and adults, with the goal of increasing support and resources for caregiving families. Through the power of unfiltered, compelling stories, the Unseen documentary cultivates compassion and serves as a catalyst for change for the caregivers in our communities.
